

## Jordan Ramanauskas (Senior Assistant)

Jordan learned his skills around the Gullane courses from the age of 12, representing Gullane for many years as a Junior and Senior in local and county competitions. After graduating from The University of Edinburgh with a degree in Chemistry and Economics, Jordan set his attention to pursuing a career in the golf industry when he joined my team at Gullane in May 2010. As well as representing the Club as his main priority, Jordan was also a member of the Edinburgh University Golf Club where he was a first team player. Jordan continues to represent the Club at a high level on the PGA Tartan Tour throughout the season.

In the role of Senior Assistant, Jordan uses the knowledge he has gained from his University education to help manage and merchandise the Pro Shop. His philosophy is to provide Members and visitors alike with the latest, quality products available in the golfing industry while providing excellent customer service.

As well as his responsibilities in the business, Jordan provides equipment custom fitting, swing video analysis and lessons for all levels of golfers. Jordan has an excellent knowledge of the technical models, mixed with his own coaching philosophies that there is a natural swing for everyone, as opposed to one swing for everyone.
